

CHIPLAB ACADEMY

In-depth, hands-on experience in VLSI and Semiconductor Design

Welcome to a world of innovation and creativity that bridges technology and impact. Welcome to Chiplab Academy. This is your steppingstone to a thrilling career in microchip design, a field where your imagination meets the cutting-edge technology of the future. Chiplab Academy is a strategic partnership between Chiplab and One Africa (OAO) Technology committed to nurturing the talent of tomorrow to fill the global talent gap in the semiconductor industry.

WHO CAN APPLY?

This program is designed for final-year students from Computer Engineering, Computer Science, or Electrical Electronics fields who are not just ready to learn, but also ready to lead. If you have a passion for technology, enjoy problem-solving, have a knack for details, and can keep pace with fast-evolving tech trends, you are the perfect candidate for this program.

COST

\$5000. We believe finances should never be a barrier to education. Through strategic partnerships, Chiplab Academy can offer financial assistance for our program, ensuring that every passionate learner can launch a successful career in microchip design.

CERTIFICATE PROGRAMS OFFERED

- Chiplab Academy offers a six-month intensive certificate program in the following areas that shape the heart of the semiconductor industry:
- Chiplab Certificate in Design Verification
- Chiplab Certificate in Physical Design
- Chiplab Certificate in Front-End RTL Design
- Chiplab Certificate in Design for Test
- The program will not only provide you with valuable skills but will also inspire you to become a pioneer in your chosen field.

100% PLACEMENT ASSISTANCE

- With Chiplab Academy, you won't just walk away with a certificate. We ensure that our graduates are equipped with the right skills and opportunities to launch a successful career in the microchip design industry. We take pride in our strong ties with leading semiconductor companies worldwide, helping our students find their footing in this exciting industry.
